

# The Student-Centered, Dynamic, Results-Based Successful School

## Middle and High Schools Planning Innovatively in The Post Pandemic Era

### PLC Associates, Inc. Signature Program

#### Our Theory of Action:

We will present key research based on the structures, practices, and systems of a high-performing middle/high school, utilizing a blend of design thinking, and sharing of critical content. This will encourage proactive problem-solving for each school as they set up an optimal infrastructure for predictably producing a culture of success and positive outcomes for all students. This is a participatory, collaborative, and action-oriented format, intentionally designed to assist each school develop high-impact systems which will produce enhanced outcomes for students.

#### Three Delivery Models:

Your school will initially go through an assessment of practices, utilizing a selection of PLC Supports and Tools. For Models 1 and 2, your school will have choices from over 85 elements as to which are most important for your school to achieve the “next level.” We will co-construct this together! PLC Associates offers this also, as an Open Enrollment Course to middle and high schools, nationally. It may also be delivered individually, in a sequential program or Strategy Retreat, for your school/district.

1. **School Specific:** We will work specifically with you and your staff to first, identify the need areas and then, over the course of the year, methodically implement these best practices.
2. **Summer Strategy Session Retreats:** Two day or multi-day format.
3. **Open Enrollment Course:** Please watch for/refer to our Learning Academy for dates and times!

#### **Area# 1: High Performance Systems-Based Culture of Success**

*Create and Sustain a High Performance Systems Based Culture of Success!*
